			Date	ainless Steel Discs or /
			Date	Avonmarks

Fixing Instructions

- 1. Fix the Caliper Marks with adhesive about 80mm to 100mm apart on either side of the crack to be monitored.
- 2. The line of Caliper Marks should be perpendicular to the crack.
- 3. Allow the adhesive to harden thoroughly before taking the first reading.
- 4. The distance between the Caliper Marks is measured by locating the top caliper jaw on the inside of each Caliper Mark.
